

MA-2420

SPECIFICATIONS

SMART BATTERY CHARGER

20A 24V AGM/GEL

The Suoer **MA-2420** is an intelligent, high-efficiency fast charger engineered for reliable 24V power management. Built with a durable metal housing that offers excellent heat dissipation and integrated temperature control, this unit provides a stable, safe output for optimal battery performance. Operating on an advanced three-phase charging cycle, it dynamically balances constant current and constant voltage to deliver a precise charge while safely protecting against overcharging.

FEATURES

- Reverse Polarity Protection
- Short-Circuit Safeguards
- Overheating Prevention
- Low-Voltage / Low-Pressure Control
- 3-phase system
- Stable motherboard
- Quiet charging

WHAT'S IN THE BOX

- 1x Suoer MA-2420 Unit (with built-in heavy-duty battery clamps and attached AC power plug)
- 1x User Manual
